

**Seat**  
Cod. 02029

# EOLO

DESIGNED BY THE WIND

**Features:**

The seat is made of elements obtained from top-quality, fully-recyclable non-toxic resins. Seat height is adjustable by means of a screw mechanism. The back is also height-adjustable with three pre-set positions. The seat revolves on a five-spoke base with wheels or fixed ends. The whole system is extremely lightweight, but at the same time very sturdy. EOLO is available in a range of different colours.
