

# Kit *s.i.*®

SMART OPENING SYSTEM, AVAILABLE IN VARIOUS SIZES, TO BE FITTED ON CONTAINERS FOR COLLECTING LIQUID AND SOLID PRODUCTS

## Kit *s.i.*

Cod. 02037

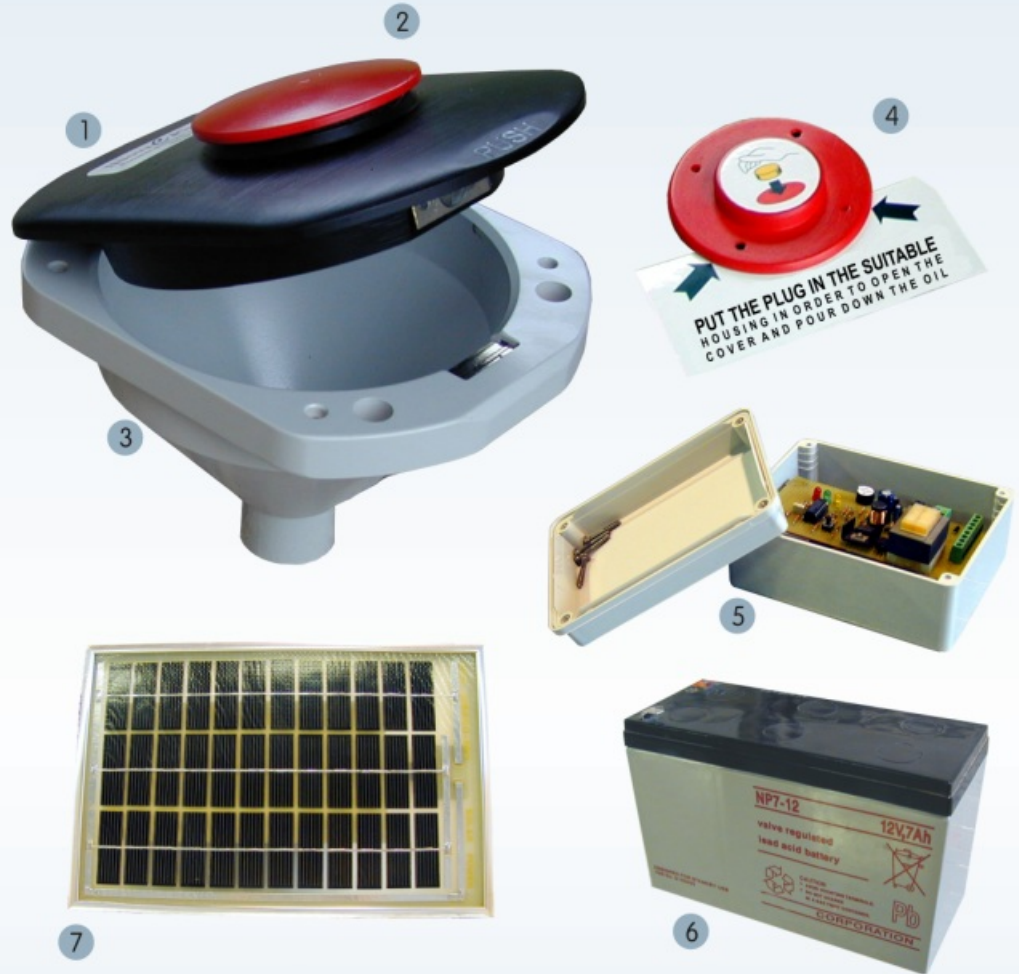

The Kit *s.i.*® was designed to improve the quality of collected products (both liquid and/or solid) in order to make the container even safer.

Thanks to a special card\* likely to recognize the user, this smart system prevents any non-authorized person from opening up the lid.

\*The system can be customized upon request.

### ELEMENTS OF THE SYSTEM

- 1- Great lid closing and protecting the funnel;
- 2- Upper lid containing and protecting the anti-smell filter;
- 3- Funnel;
- 4- Sensor group for cap presence and/or other identifying signal
- 5- Container management card
- 6- Battery (12V,7AH)
- 7- Solar panel for battery recharge.

### INSTRUCTIONS FOR USE

Put the plug in the suitable housing in order to open the cover and pour down the oil

Pour the content of the container into the funnel

Close the door
